SAAS PRODUCT

The Problem: Every Name Card Card Collected Is a Missed Opportunity

Data Chaos

Who enters the card data — and where is it securely stored?

Delayed Follow-Up

By the time data is ready, the customer has forgotten your brand.

SPAM Risk

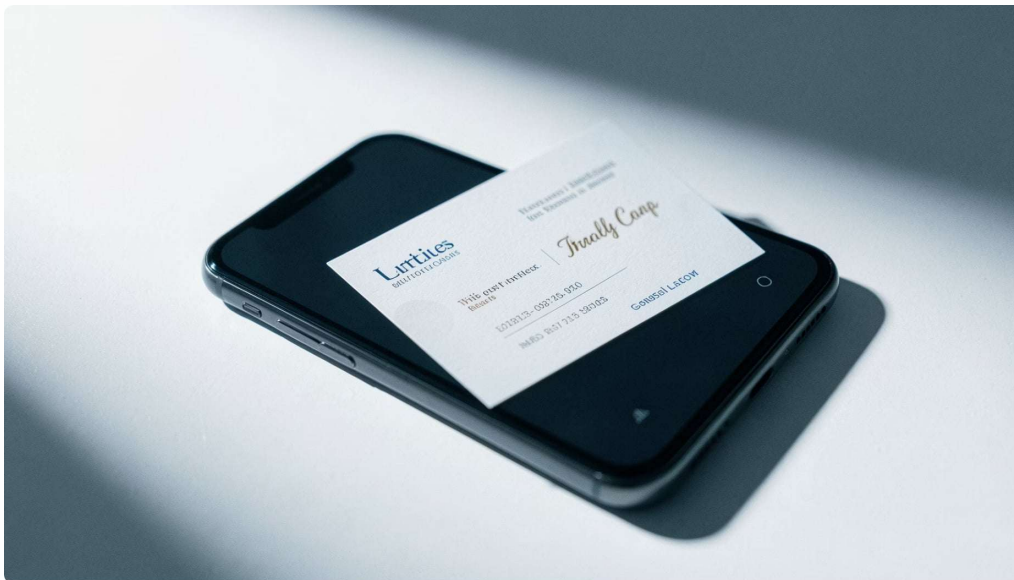

Late, cold outreach gets blocked — killing your marketing reach.

Zero ROI Visibility

Exhibition, Events, Roadshows and field sales spend with no measurable return.

Introducing Name Card Scan — Scan. Sync. Convert.

Scan Instantly

Scan or upload any business card via smartphone — online or offline.

Connect in Seconds

Data is captured, synced, and a branded message fires via **WhatsApp + Email** in seconds.

Prospect-Lead-Sale-Customer

Your brand DP, name, number and email are planted directly on the prospects phone.

How NCS Solves Every Pain Point

Brand Recall
